Idwal Marine Services

To whom it may concern,

The Isle of Man Ship Registry has had a contract in place with Idwal Marine Services to provide audit and inspection services on Isle of Man registered vessels since 2009. Since that time, the global survey cover provided has increased as more surveyors have been added to the system, and the relationship has developed between the two organisations.

We have found Idwal Marine Services to be a very professional and pragmatic organisation, which strives to provide quality services to meet the client's needs.

The Isle of Man Ship Registry works closely with Idwal Marine Services to source the right people and develop the relevant training and familiarisation to ensure the quality of service is maintained at the highest level. We seek feedback from our clients' on audit and inspection performance and I can confirm that the results for Idwal services are consistent with that of our own surveyors.

I would not hesitate to recommend Idwal Marine Services to other organisations.

Yours faithfully,

Dick Welsh
Director/Chief Marine Surveyor
