Graig Ship Management Ltd, based at Cardiff in the U.K., have been entrusted with the management of vessels we control since 2001.

During this time they have been both the Technical and Crew Managers, a task they have performed in both a diligent and professional manner. They liaise closely with the Commercial Managers we employ in an endeavour to ensure that the vessels satisfactorily perform in every respect and when there are incidents they coordinate and arrange all aspects to our total satisfaction.

They report in a timely and thorough manner and we appreciate the one to one contact at all levels in their organisation.

We are happy to recommend their services to would be Owners and Operators.

Kind regards

Hans Jørgen Clausen
General Manager
