Dear Mr Williams,

Our project of four 17.500 ton DW ships came to an end.  
I like to thank Graig Ship management and specially the Shanghai branch under the management of Capt. John Coffin, for their professional and pleasant co-operation during building and outfitting of m.v. Marinus Green, Marissa Green, Magdalena Green and Marlene Green, during 1999-2001.

We had a very good relationship with the supervision team and their Chinese experience together with their quality work, made this project a successful one. The ships were delivered in time and are sailing very good.

If you want to use this letter as a reference in case of another project, please feel free to do so. In case of any questions, you always may contact the undersigned.

Best regards,

  
A. Jobse  
Fleetmanager
